AGENDA ITEM: VI.F.

Approval of Program Deletion: Request for Deletion of the Health Information Technology and Medical Coder/Biller Programs

Upon the recommendation of the Educational Affairs Committee, the College requests Board approval to delete the Health Information Technology Associate in Science Degree and Medical Coder/Biller Applied Technology Diploma programs effective at the end of the Fall 2024 term, with no new student enrollments beginning in the Spring 2025 term. The College also requests Board approval to inactivate the associated courses within the programs, effective at the end of the Summer 2026 term. This teach-out period provides actively enrolled students with the opportunity to complete the programs.

The Health Information Technology program has had consistently low enrollment over the last three academic years with only 13 current students. The Medical Coder/Biller program has also had consistently low enrollment over the last three academic years with only 9 current students. Additionally, a financial analysis of the tuition and FTE revenue as well as the operating costs revealed that the programs are operating at a significant loss and are therefore not sustainable.

Effective Date of Implementation: End of the Summer 2026 Term

Academic Affairs Report

Approval of the Updated General Education Review Course List

The College requests the Board's approval of the enclosed General Education Review Course List, which has been updated in response to a letter of findings from the Division of Florida Colleges (DFC). In compliance with sections 1007.25 and 1007.55, Florida Statutes, the College reviewed its general education courses and submitted the original list for Board approval in August 2024. Upon reviewing the College's list, the DFC flagged courses that demonstrate discrepancies in one or more of the following categories:

- Section One: Courses flagged as not appropriate for general education
- **Section Two:** Courses flagged as requiring an amendment to the description, learning outcome(s), or choice of general education subject area to come into compliance with the statutory requirements
- **Section Three:** Courses flagged for technical errors, including but not limited to, mislabeled course titles, inappropriate course designators, typographical errors, etc.
- **Section Four:** Courses flagged for any discrepancies between the institution's submitted course list and what the institution entered in the Statewide Course Numbering System (SCNS)

Enclosed is the letter of findings as well as a summary of the findings and changes to the General Education Review Course List. College staff members will inform the Educational Affairs Committee of the course changes and complete the associated catalog and Statewide Course Numbering System (SCNS) updates. Changes to the following courses will become effective immediately upon Board approval:

LIT 2000: Introduction to Literature
 MGF 1106: Mathematics for Liberal Arts I

MGF 1130: Mathematical Thinking

Changes to the remaining courses will become effective in the Fall 2025 term.

Model Standards of Good Practice for Trustee Boards

In Support of Effective Community College Governance, The Board Believes:

- That it derives its authority from the community and that it must always act as an advocate on behalf of the entire community;
- That it must clearly define and articulate its role;
- That it is responsible for creating and maintaining a spirit of true cooperation and a mutually supportive relationship with its CEO;
- That it always strives to differentiate between external and internal processes in the exercise of its authority;
- That its trustee members should engage in a regular and ongoing process of in-service training and continuous improvement;
- That its trustee members come to each meeting prepared and ready to debate issues fully and openly;
- That its trustee members vote their conscience and support the decision or policy made;
- That its behavior, and that of its members, exemplify ethical behavior and conduct that is above reproach;
- That it endeavors to remain always accountable to the community;
- That it honestly debates the issues affecting its community and speaks with one voice once a decision or policy is made.
