Dear Student,

Congratulations on taking your first step towards earning your degree. You are well on your way to reaching your educational goals! Did you know Saint Leo University's Lake City Center has a 20+ year partnership with Florida Gateway College? This gives locals the opportunity to earn a four-year degree right here in Lake City. As a student who has been admitted to Florida Gateway College, you are also automatically admitted to Saint Leo University upon the conferral of your A.A. or A.S. degree!

At Saint Leo University, you can turn your Florida Gateway College A.A. or A.S. degree into a bachelor's degree in approximately two years in one of our career-focused programs. You will have the choice of a learning environment that works best for you whether in a traditional classroom or online. You could also be eligible for the EASE Grant, which provides \$3,500 **per year** to Florida resident students attending Saint Leo full time, in addition to other federal financial aid for which you may qualify.

We offer a smooth transition in joining the Saint Leo family with individual academic advising, financial aid assistance, small class sizes, plus faculty and staff that are committed to guiding you through your educational journey with us. You will have access to WorldWide Student Services which includes Career Services and Student Life opportunities to build your network which prepares you for after graduation. We are with you every step of the way.

We pride ourselves on making students our top priority and hope that you will join us at Saint Leo University for the next step in your education. You'll love who you become here.

We are looking forward to working with you!
